Volunteers Needed

UCLA researchers are studying HIV prevention in adolescents. The study involves 1-2 visits to collect blood, urine, & gut samples. You may receive up to $150.

To participate, you must be:
10 to 14 years old or
18 to 21 years old, and
HIV positive and on tenofovir in your medications, or
HIV negative*

*HIV negative volunteers under 18 must already be scheduled for a clinically indicated lower endoscopy

You are not eligible for this study if you are pregnant, have a history of inflammatory bowel disease, active gut infection or inflammation, history of heart or kidney disease, or use of warfarin or heparin. Do not include any sensitive information in an email as the confidentiality of emails cannot be guaranteed.

Call 310-794-7195 or 310-267-1040 for Dr. Kordy or Stephanie Okimoto.
