January 11, 2016

Dear UCLA Graduate,

Congratulations on your Fall graduation from UCLA! We want to provide you with important reminders about transitioning your health care needs and understanding your insurance options as your eligibility for Ashe Services approaches an end. If you have received this letter in error or are a continuing student, please disregard the following announcements.

If you have a chronic condition, make sure you work with your Ashe Primary Care Provider on a suitable referral arrangement. To obtain a copy of your medical records, visit the Ashe Center homepage under the “How Do I?” menu. There will be an option to “Request Medical Records and Statements”. Your medical records can either be mailed to you or be made available for pick up at the Ashe Center on the 4th floor.

To transfer your prescriptions from the Ashe Pharmacy, contact the pharmacy where you want to have your prescription transferred to. Provide them with the name of the medication and your prescription number, and have them call the Ashe Pharmacy at (310) 206-2146.

Remember to review your BruinBill account up to 6 months after you have left the university for potential charges that may be assessed to your account to prevent a delinquent fee assessment. Make sure your current mailing and email address is updated online through your URSA account.

INSURANCE OPTIONS

If would like to learn about other insurance options, you can visit the Ashe Center website at www.studenthealth.ucla.edu. Click on the “Insurance” tab, scroll to “Helpful Resources” and then click on the link “Alternate Insurance Resources.” You can also visit www.gettingcovered.org/toolkit where you can download a toolkit which provides information about health insurance options for young adults, specifically by state of residence.

You may have also heard of or been affected by the federal mandates of healthcare. If you are interested in purchasing a plan through the health exchange for the state of California, please visit www.coveredcalifornia.com or call at (800) 300-1506.

We provide the above information as a courtesy. We do not endorse these plans.

FINDING A PROVIDER

If you are staying in Los Angeles, you can find a UCLA provider at http://www.uclahealth.org/body.cfm?id=479. You can also contact ULCA Physician Referral Services at (800) 825-2631 or view their website at: www.UCLAHealth.org/PRS. For a more extensive search, you can find a provider at the American Medical Association website at https://extapps.amaassn.org/doctorfinder/recaptcha.jsp.

If you have any questions about the information provided, please contact the Ashe Center at (310) 825-4073. Congratulations again on your achievement and we wish you the best in your future endeavors!

Sincerely,

UCLA Arthur Ashe Student Health & Wellness Center
(310) 825-4073
